ABOUT ME

Results-driven Software Engineer with hands-on experience in **Frontend Development, AI/ML, and UI/UX**. Proven ability to build **scalable web applications** and reusable **component-based architectures** while working across the **full Software Development Life Cycle (SDLC)** in **Agile environments**. Experienced in managing GitHub workflows, contributing to **production-grade codebases**, and translating complex problems into clean and creative user-focused solutions.

EXPERIENCE

Analyst Trainee

Front-End Dev., Deloitte USI

Sep. 2025 – Present
Bengaluru, India (Hybrid)

- Trained on Front-End Foundation and Advanced Technologies with hands-on exposure to Azure DevOps, Storybook, VDE setups, and Agile sprint ceremonies
- Shadowing on US client project **Novant Health**: resolved front-end defects and built reusable Lit components
- Developed frontend features using **TypeScript** and frameworks like Lit and Vite, building reusable, component-driven UI modules for enterprise applications
- Contributed across the **end-to-end SDLC**—from requirement understanding and development to testing and deployment—within **Agile sprint cycles** using Azure DevOps and code reviews

Product Design Intern

Product Team, vREfyd - Indiassetz

Mar. 2025 – May 2025
Bengaluru, India

- Designed user flows and high-fidelity UI screens for core product modules
- Enhanced mobile and web responsiveness with consistent, scalable UI design practices
- Created dynamic promotional templates integrated with in-house AI assistant (AIRA)

IT Student Intern

IT Dept., Helicopter Division - HAL

Sept. 2024 – Oct. 2024
Bengaluru, India

- Led the development of an On-Premise Automatic Digital Document Signing System
- Improved inventory management workflows, increasing efficiency by 15%
- Gained experience with VLANs, VMware setups, server topologies, and internal networks

EDUCATION

Global Academy of Technology

B.E. in Information Science – CGPA: 8.89

Bengaluru, India
Dec. 2021 – May 2025

- Represented the college in intercollegiate theatre events showcasing teamwork and creativity
- Participated in hackathons and technical competitions demonstrating leadership and innovation
- Designer & editor at ANKURA; Co-founded and headed the departmental student club ADVAITH

Gurukula Pre-University College

PCMB – Percentage: 86.83%

Mysuru, India
2019 – 2021

- Stood at 18,647th rank among 2.1 lakh in KCET-2021 & Scored 90+ in Physics, Chemistry, and Mathematics

Sri Jnanakshi Vidyaniketan

Class X – Percentage: 83%

Bengaluru, India
2014 – 2019

- Achieved 90+ in Science and Mathematics

PROJECTS

Professional Projects

Cake Shop (React & Angular) | *React, Angular, Sass, Bootstrap* Sept. 2025 – Oct. 2025

- Guided a team to build a full-featured e-commerce application during Deloitte training
- Coordinated UI modules, tracked progress, and ensured timely delivery
- Developed reusable components and responsive layouts across frameworks
- Maintained consistency by handling both React and Angular codebases
- GitHub: **cake-react** | **cake-angular**

Static E-commerce Website | *HTML, CSS, JS, Bootstrap, Sass* Aug. 2025 – Sept. 2025

- Managed a beginner-level team during Deloitte onboarding to build a static e-commerce site
- Managed GitHub workflows: PR reviews, branches, merges, conflict resolution, and code consistency
- Built responsive pages, modular Sass components, and interactive JS features

Academic Projects

Selective Text Extraction | *Deep Learning, TensorFlow, CTC, OpenCV* Dec. 2024 – May 2025

- Created an OCR-free deep learning pipeline for extracting structured text from answer sheets
- Implemented CTC-based sequence learning and custom augmentation for real-world writing variance

Driver Drowsiness Detection | *Deep Learning, TensorFlow, Keras, OpenCV, IoT* June 2024 – Sept. 2024

- Designed a custom M-CNN model to classify eye states in real time
- Achieved 95% accuracy using live camera feeds for inference

AgroVisionary | *ML, DL, OpenCV, Web Dev, IoT* Mar. 2024 – June 2024

- Built a crop recommendation and plant disease detection platform using ML & DL
- Generated crop health reports with cure suggestions and preventive tips

Portfolio Website | *HTML/CSS, Bootstrap, JS, API* Dec. 2023 – Jan. 2024

- A personal portfolio highlighting skills and projects
- Integrated mailing API for seamless message delivery using the Contact Me form

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, TypeScript, SQL, HTML/CSS, Sass

Frameworks: React, Angular, Bootstrap, Lit, MERN Stack, TensorFlow, Keras

Tools: Git/GitHub, Azure DevOps, Storybook, Figma, Jira, VMware, Linux, Active Directory, Microsoft 365, WordPress

Practices: Agile/Scrum, SDLC, VDE environments, CI/CD pipelines, Version Control Workflows, Code Reviews

CERTIFICATIONS & ACHIEVEMENTS

Certifications: NPTEL Elite (DSA, Python for DS, Testing) | Google & IBM – Cloud & Cybersecurity | HackerRank Java | HP AI & Cybersecurity | Udemy – Master JavaScript, React JS, Responsive Email Development

Achievements: Runner-up – Blockchain Hackathon (NITK 2023) | IBM-Z, SIH Participant | Toastmasters International Member

NON-TECHNICAL SKILLS

Soft Skills: Leadership, Team Mentoring, Public Speaking, Collaboration, Empathy

Analytical: Critical Thinking, Problem Solving, Design Thinking, Attention to Detail
